2021*

**THE STATE COMMITTEE
OF THE REPUBLIC OF UZBEKISTAN
ON STATISTICS**

**PRODUCTION OF GROSS DOMESTIC
PRODUCT OF THE REPUBLIC
OF UZBEKISTAN**

Tashkent - 2021

PRODUCTION OF GROSS DOMESTIC PRODUCT

According to a preliminary estimate, in January-June 2021, the gross domestic product (hereinafter referred to as GDP) of the Republic of Uzbekistan in current prices amounted to 318 472.0 billion soums and, compared to January-June 2020, increased in real terms by 6.2%. The GDP deflator index, in relation to the prices of January-June 2020, amounted to 112.6%.

GDP of the Republic of Uzbekistan for January-June 2021

GDP per capita for January-June 2021

GDP per capita
9 175.4 thousand soums

Growth rate of GDP
per capita 104.2%

GDP per capita
USD 871.8

In January-June 2021, GDP per capita in current prices amounted to 9 175.4 thousand soums (or, in the equivalent, 871.8 USD) and, compared to January-June 2020, increased by 4.2 %.

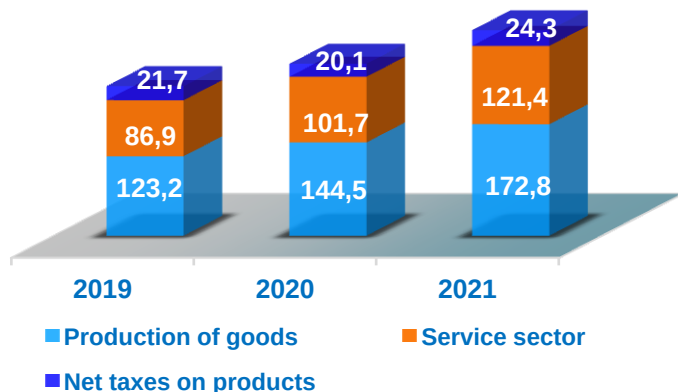

PRODUCTION OF GROSS DOMESTIC PRODUCT

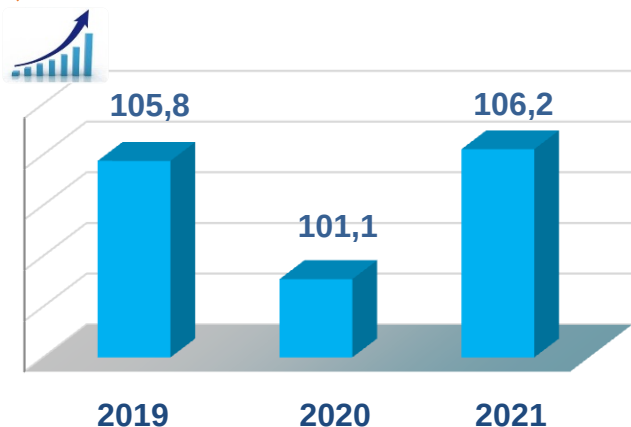

According to the results of January-June 2021, in the structure of the GDP produced, the gross value added of the production of goods amounted to 172 763.0 billion soums, the services sector – 121 410.7 billion soums, and net taxes on products – 24 298.3 billion soums.

Calculated in US dollars at the average exchange rate for the reporting period, nominal GDP was formed in the amount of 30 260.1 million US dollars (for January-June 2020 27 205.5 million US dollars).

GDP of the Republic of Uzbekistan for January-June 2019-2021 * (at current prices, trillion soums)

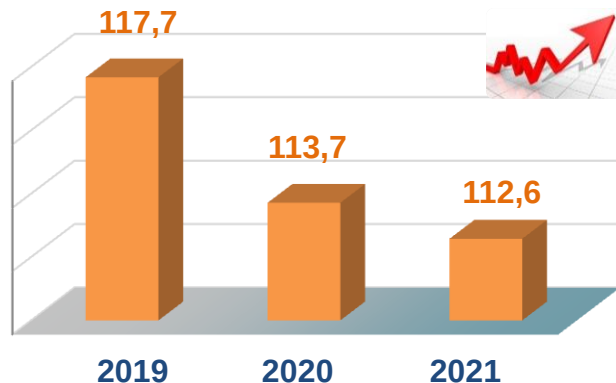

GDP growth rates for January-June 2019-2021 (in % compared to the corresponding period of the previous year)

In January-June 2021, GDP growth accelerated to 6.2% against 1.1% in January-June 2020 and 5.8% in January-June 2019. At the same time, the GDP deflator index slowed down to 112.6% after 113.7% in January-June 2020 and 117.7% in the corresponding period of 2019.

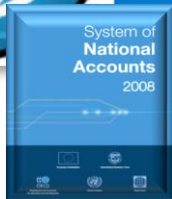

GDP deflator index for January-June 2019-2021 (in% to the corresponding period of the last year)

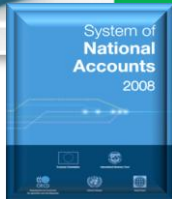

For reference: in January-June 2021, the official exchange rate of the US dollar in relation to the soum averaged 10 524.5 soums, in the same period of 2020 – 9 790.2 soums.

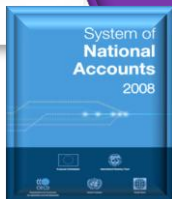

PRODUCTION OF GROSS DOMESTIC PRODUCT

GDP is one of the most important indicators of the System of National Accounts, which characterizes the final result of the production activity of resident economic units, which is measured by the value of goods and services produced by these units for final use.

The volume index (real growth rates) of GDP is calculated as the ratio of the GDP of the reporting period, calculated in constant prices, i.e. in prices of the corresponding period of the last year (real GDP) to GDP in current prices of the corresponding period of the last year.

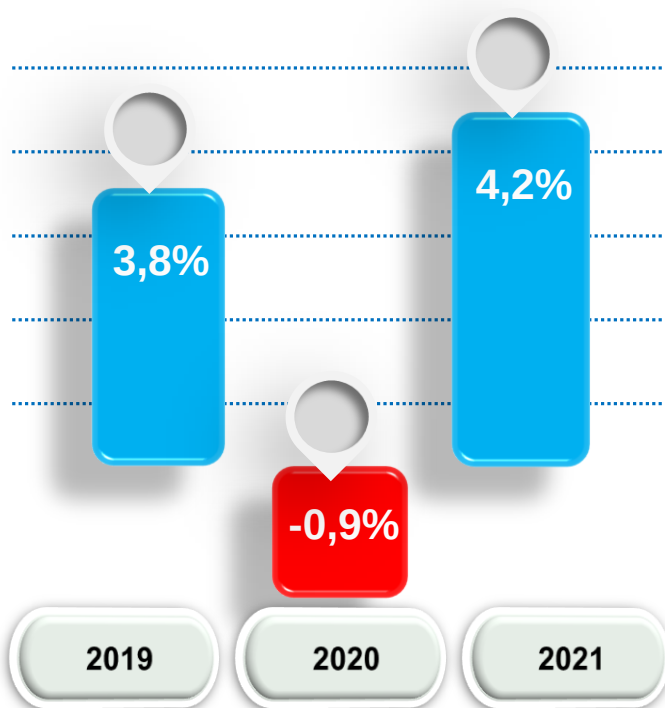

The GDP deflator index characterizes the average price change in the economy and is calculated as the ratio of nominal GDP (GDP of the reporting period in current prices) to real GDP.

PRODUCTION OF GROSS DOMESTIC PRODUCT

For reference: GDP per capita is determined by dividing its total volume in current prices by the average population of the country for a certain period of time. The average resident population of the Republic of Uzbekistan was: in January-June 2019 - 33 390.1 thousand people, in January-June 2020 - 34 049.6 thousand people, in January-June 2021 - 34 709.5 thousand people.

Real growth rates of GDP per capita for January-June 2019-2021 (in% to the previous period last year)

GDP per capita for January-June 2019-2021 (at current prices, thousand soums)

As it is clear from the presented chart, in January-June 2021, GDP per capita growth in real terms amounted to 4.2% against a decrease of 0.9% in January-June 2020 and an increase of 3.8% in January-June 2019 of the year.

PRODUCTION OF GROSS DOMESTIC PRODUCT

PRODUCTION OF GROSS DOMESTIC PRODUCT

GDP growth rates by type of economic activity for January-June 2021
(in % to the corresponding period of the last year)

The gross value added created by all sectors of the economy amounted to 92.4% of the total GDP and increased by 6.1% (contribution to GDP growth - 5.7 percentage points). Net taxes on products in the structure of GDP amounted to 7.6% and increased by 7.1% (contribution to GDP growth - 0.5 p.p.).

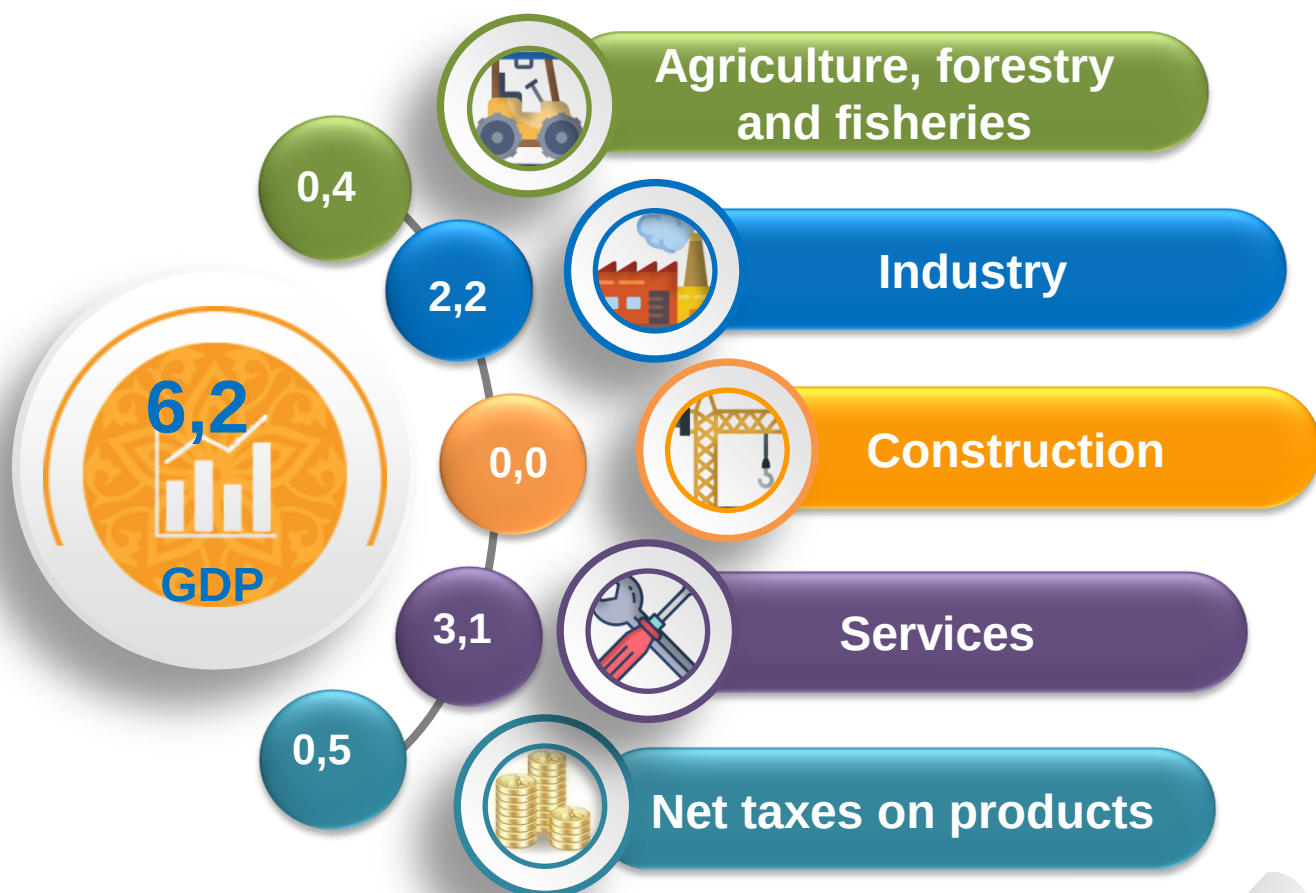

PRODUCTION OF GROSS DOMESTIC PRODUCT

A positive contribution to GDP growth was made by the sectors of agriculture, forestry and fisheries - 0.4 percentage points. (in January-June 2020 - 0.6 p.p.), industry - 2.2 p.p. (in January-June 2020 - -0.1 p.p.) and the service sector - 3.1 p.p. (in January-June 2020 - 0.1 p.p.). The construction industry did not have an impact on GDP growth (in January-June 2020 - 0.5 p.p.), the added value of which, compared to January-June 2020, increased by 0.1%. Due to the growth of net taxes on products, GDP increased by 0.5 percentage points. (in January-June 2020 - 0.0 p.p.).

Contribution of industries to GDP growth in January-June 2021 *(in% to the total)*

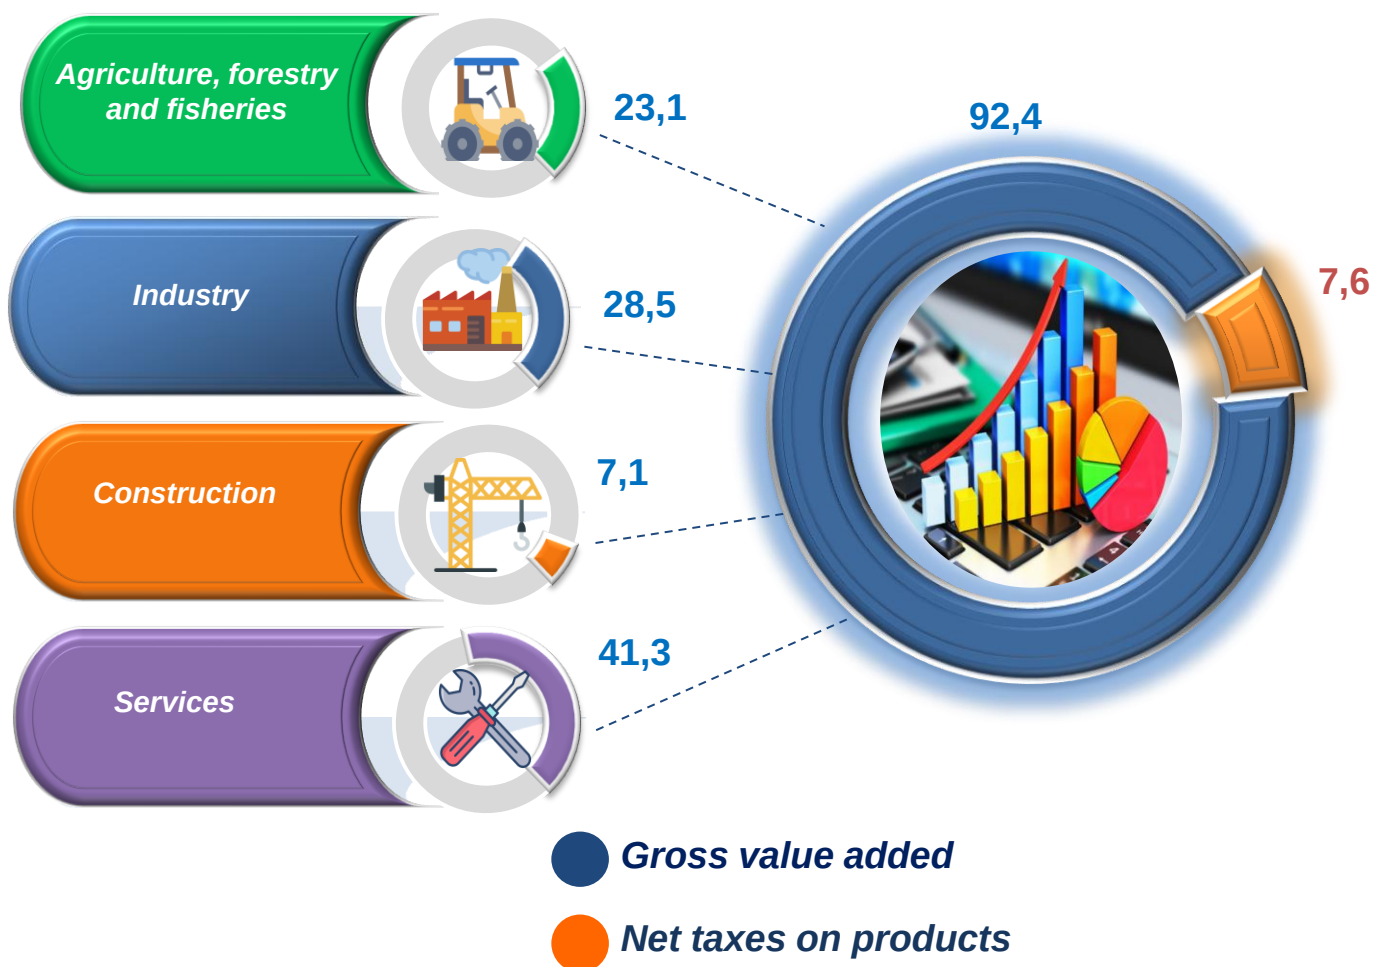

PRODUCTION OF GROSS DOMESTIC PRODUCT

PRODUCTION OF GROSS DOMESTIC PRODUCT

Sectoral structure of GDP for January-June 2021 (in % to the total)

At the end of January-June 2021, insignificant changes were noted in the sectoral structure of GDP. Thus, the share of agriculture, forestry and fisheries in the sectoral structure of GDP (GVA) increased from 23.0% to 23.1%, industry - from 28.3% to 28.5%, while the share of construction decreased from 7.4% to 7.1%. The share of the service sector remained at the level of the last year of the same period and amounted to 41.3%.

GROSS ADDED VALUE OF AGRICULTURE, FORESTRY AND FISHERIES

At the end of January-June 2021, agriculture, forestry and fisheries showed positive growth rates at the level of 1.8%. The positive dynamics in this industry is due to the growth of animal husbandry by 4.1% (in January-June 2020 - an increase of 1.6%, in January-June 2019 - an increase of 2.0%). At the same time, there was a decrease in crop production by 1.7% (in January-June 2020 - an increase of 4.0%, in January-June 2019 – an increase of 3.6%).

For information: According to preliminary data, in January-June 2021, the volume of production in physical terms was:

	<i>Product Name</i>	<i>Production volume</i>	<i>Growth rates, %</i>
	Vegetables	3 174,9 thousand tons	104,4
	Fruits	938,6 thousand tons	92,0
	Corn	4 724,0 thousand tons	91,5
	Melons	211,9 thousand tons	103,0
	Grape	45,5 thousand tons	105,1
	Potato	1 543,8 thousand tons	103,5
	Meat in live weight	1 191,5 thousand tons	104,4
	Milk	5 065,5 thousand tons	104,5
	Eggs	3 399,6 million pcs.	100,1

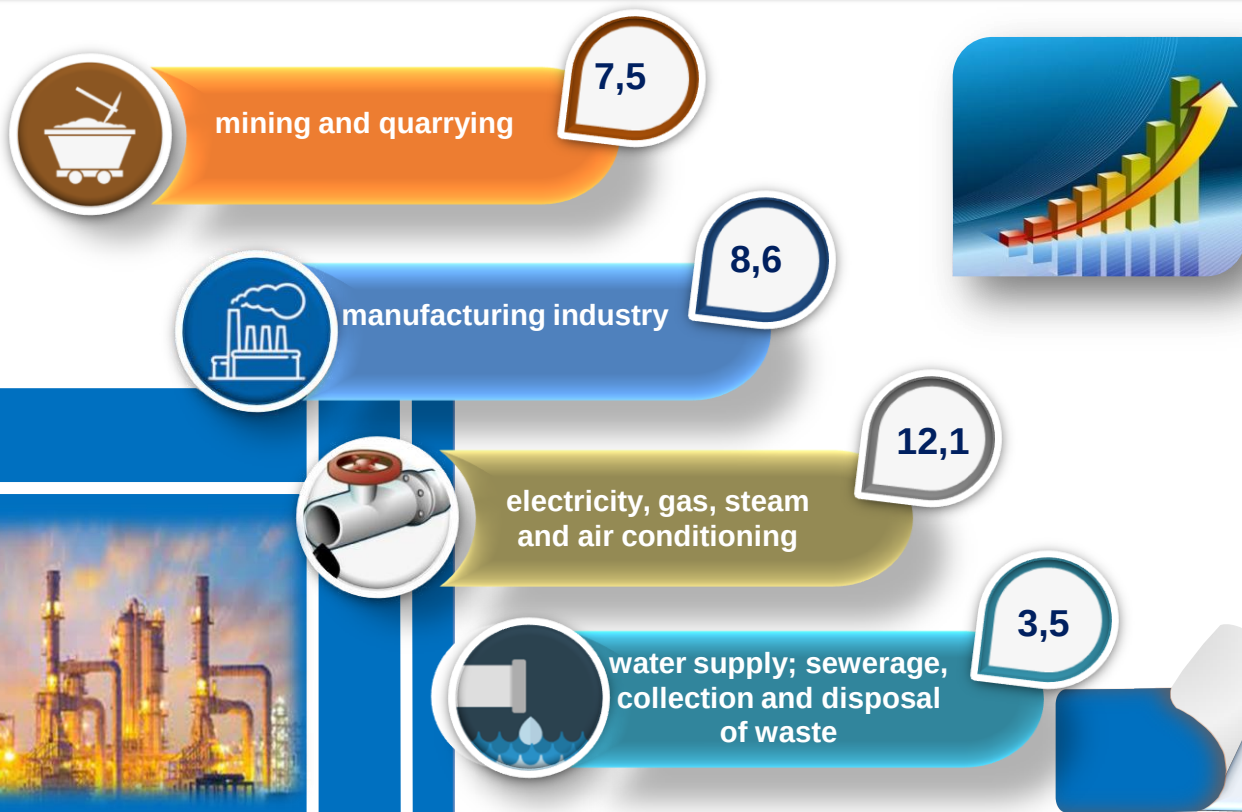

GROSS VALUE ADDED OF INDUSTRY

In the industry, there is an increase in value added by 8.5 %. The positive dynamics in this industry is mainly due to an increase in the value added of the mining industry and quarrying by 7.5 % (in January-June 2020 – a decrease of 18.1 %, in January-June 2019 – an increase of 5.0 %) and the manufacturing industry by 8.6 % (in January-June 2020 – by 4.8 %, in January-June 2019 – by 5.8 %). The electricity, gas, steam and air conditioning industry also showed positive growth of 12.1 % compared to an increase of 8.4% in January-June 2020 and 5.6% in January-June 2019. In terms of the added value of water supply, sewerage, waste collection and disposal, an increase of 3.5% was noted (in January-June 2020 – a decrease of 11.9%, in January-June 2019 – a decrease of 11.5 %).

Growth rates of gross value added in industry in January-June 2021

(in % compared to the corresponding period of the previous year)

electricity, gas, steam and air conditioning	4 175,5	105,6	5 354,9	108,4	5 846,1	112,1
water supply, sewerage, waste collection and disposal	455,2	88,5	432,8	88,1	623,4	103,5

In the period under review, the share of manufacturing in the structure of value added in the industrial sector increased to 76.6% against 74.1% in January-June 2020. Accordingly, there was a decrease in the share of the mining industry and quarrying to 15.7% (in January-June 2020 - 17.6%).

At the end of January-June 2021, in the structure of the added value of the manufacturing industry, the largest share fell on the metallurgical and metalworking industry (except for machinery and equipment), which reached 42.2%.

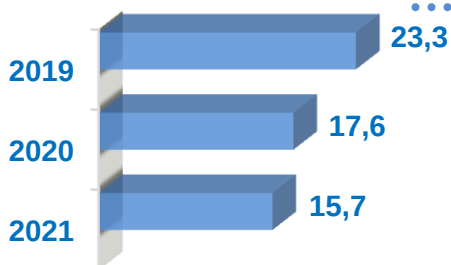

GROSS VALUE ADDED OF INDUSTRY

The share of production of textiles, clothing, leather and related products was 13.7%, food, beverages and tobacco products - 13.3%, chemical products - 7.9%, rubber, plastic products and other non-metallic mineral products - 7.5%, vehicles, trailers, semi-trailers and other transport equipment - 4.3%, computers, electronic and optical products - 2.4%, coke and petroleum products - 2.1% and other manufacturing products – 6.6%.

GROSS VALUE ADDED OF THE TRADE INDUSTRY

In January-June 2021, the gross value added of the service sector amounted to 121 410.8 billion soums and, compared to the corresponding period of 2020, increased by 8.0%. Including trade services increased by 9.1%, accommodation and food - by 11.9%, transportation and storage - by 13.4%, information and communication - by 19.9%.

In January-June 2021, in the structure of gross value added of trade, the largest share fell on retail trade (excluding trade in motor vehicles) and amounted to 67.4% (in January-June 2020 - 68.6%, in January-June 2019 - 67.3%).

The share of wholesale trade (excluding trade in motor vehicles) reached 26.0% (in January-June 2020 - 25.6%, in January-June 2019 - 25.9%), wholesale and retail trade in motor vehicles and their repairs - 6.6% (in January-June 2020 - 5.8%, in January-June 2019 - 6.8%).

Dynamics of the structure of gross trade value added in January-June 2019-2021 (in % to the total)

GROSS VALUE ADDED BY TRANSPORTATION AND STORAGE INDUSTRY

In January-June 2021, in the structure of the gross value added of the **transportation and storage** industry, the largest share fell on road transport - 58.0% (in January-June 2020 - 55.5%, in January-June 2019 - 51.3%).

Pipeline transport amounted to 16.9% (in January-June 2020 - 18.4%, in January-June 2019 - 20.7%), railway transport - 11.6% (in January-June 2020 - 13.7%, in January-June 2019 - 11.8%), auxiliary transport activities - 10.3% (in January-June 2020 - 9.0%, in January-June 2019 - 10.9%), air transport - 3.2% (in January-June 2020 - 3.4%, in January-June 2019 - 5.3%) of the total value added of this industry.

For information: In January-June 2021, 53.0 thousand new small enterprises and microfirms were created in the republic (excluding dehkans and farms). The largest number of them was created in trade (35.3%), industry (20.9%), agriculture, forestry and fisheries (14.7%), construction (6.8%), accommodation and food services (6.3%), information and communication (2.5%), transportation and storage (2.5%).

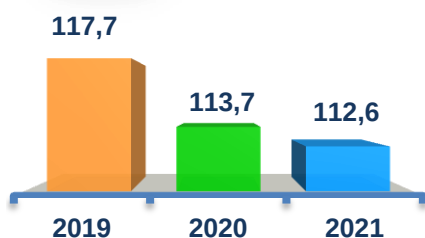

GROSS DOMESTIC PRODUCT INDEX DEFLATOR

In January-June 2021, the **GDP deflator index** amounted to 112.6% in relation to the prices of January-June 2020. The highest values of indices - deflators in the context of industries were noted in agriculture, forestry and fisheries - 117.8%, construction - 114.2% and trade, housing and food services - 113.5%. Indices - deflators are lower than, in general, in the economy (112.6%), were observed in industry - 111.1%, transportation and storage, information and communications - 107.9% and other service industries - 110.5%. At the same time, the index-deflator of net taxes on products amounted to 112.8%.
