

GROSS DOMESTIC PRODUCT

According to preliminary estimates, the GDP of the Republic of Uzbekistan for January - March 2019 in current prices amounted to 91,097.7 billion soums and, in comparison with January - March 2018, in real terms increased by 5.3%. The GDP deflator relative to January-March 2018 prices amounted to 120.4%.

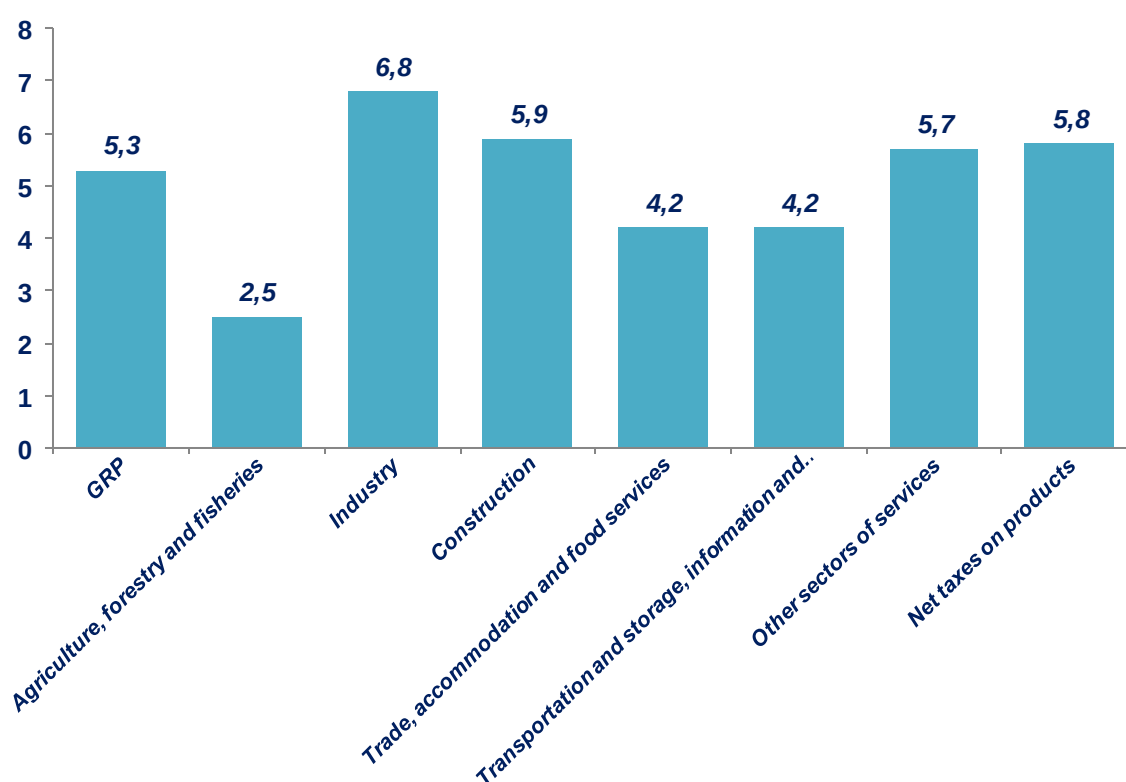

GDP per capita amounted to 2 734.4 thousand soums, which was 3.4% more than in the corresponding period of 2018.

GDP production in January - March by type of economic activity is characterized by the following data:

	<i>Billion soums</i>		<i>Volume Index, %</i>	<i>Impact on GDP growth, %</i>
	<i>2018</i>	<i>2019</i>		
GDP – total	71 875,0	91 097,7	105,3	5,3
<i>including:</i>				
Gross value added	61 367,5	80 783,7	105,2	4,5
agriculture, forestry and fisheries	10 194,1	11 996,0	102,5	0,4
industry	18 574,6	27 415,3	106,8	1,8
construction	4 068,3	4 907,8	105,9	0,3
trade, accommodation and food services	5 888,3	6 891,8	104,2	0,3
transportation and storage, information and communication	6 796,3	7 877,2	104,2	0,4
other sectors of services	15 845,9	21 695,6	105,7	1,3
Net taxes on products	10 507,5	10 314,0	105,8	0,8

The economic growth rate is due to the positive dynamics in the main sectors of the economy. Gross value added (hereinafter - GVA), created by all sectors of the economy, accounted for 88.7% of total GDP and increased by 5.2% (contribution to GDP growth - 4.5 percentage points). Net taxes on products amounted to 11.3% in the structure of GDP and showed an increase of 5.8% (contribution to GDP growth - 0.8 percentage points).

**GDP growth rate by type of economic activity for January - March 2019
(% from January - March 2018)**

The largest contribution to GDP growth was made by the services sector (2.0 pp), which grew by 5.0% compared with the corresponding period of the previous year. From it, trade services (including repair of motor vehicles) increased by 4.2%, accommodation and food services - by 3.7%, transportation and storage - by 4.6%, information and communication - by 2.7% and other sectors of services - by 5.7%.

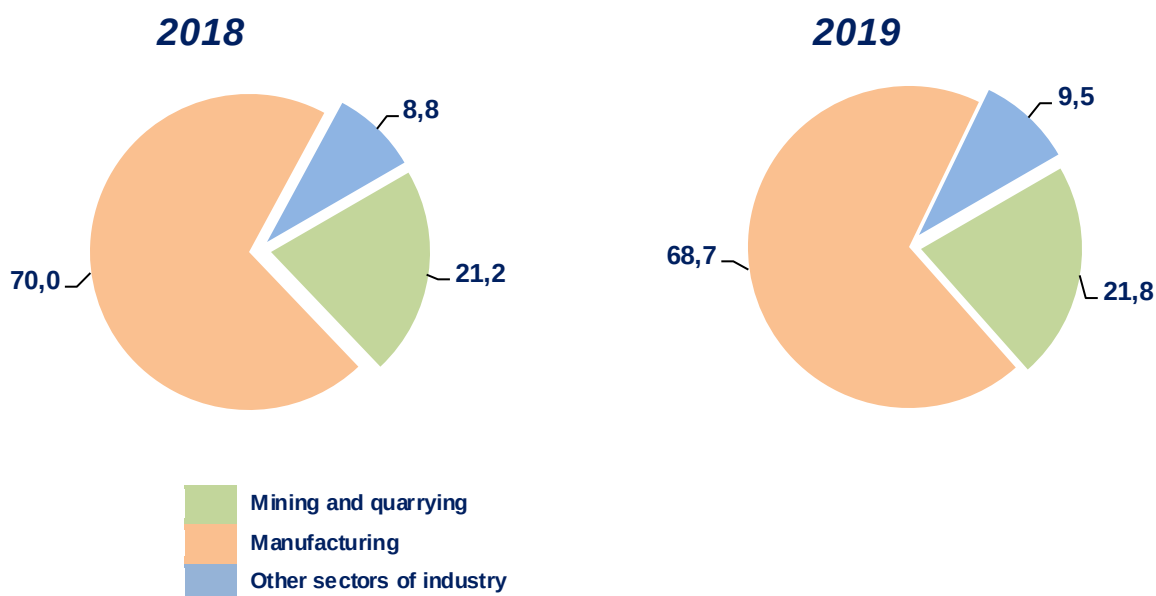

By industry, there is a 6.8% increase in value added. At the same time, a positive contribution to GDP growth from industrial production is estimated at

1.8 pp. The positive dynamics in the industry is due to the increase in the value added of mining industry and quarrying by 4.8%, manufacturing - by 7.6% and other industries - by 5.5%.

The structure of the gross value added industry in January - March

	2018	2019	Volume Index, %
Industry	18 574,6	27 415,3	106,8
<i>including:</i>			
mining and quarrying	3 946,3	5 974,4	104,8
manufacturing	13 000,1	18 831,5	107,6
other sectors of industry	1 628,2	2 609,4	105,5

The structure of the gross value added in industry for January - March (% of total)

According to the results of January-March 2019, the largest share in the structure of the gross value added of the manufacturing industry is in the metallurgical and metalworking industry (except for machinery and equipment) - 36.7%. The share of production of textiles, clothing, leather goods and related products was 14.6%, food, beverages and tobacco products - 13.6%, chemical

products - 8.7%, rubber, plastic products and other non-metallic mineral products 8.4%, motor vehicles, trailers, semi-trailers and other transport equipment - 6.3%, electrical equipment - 2.8% and other manufactured products - 8.9%.

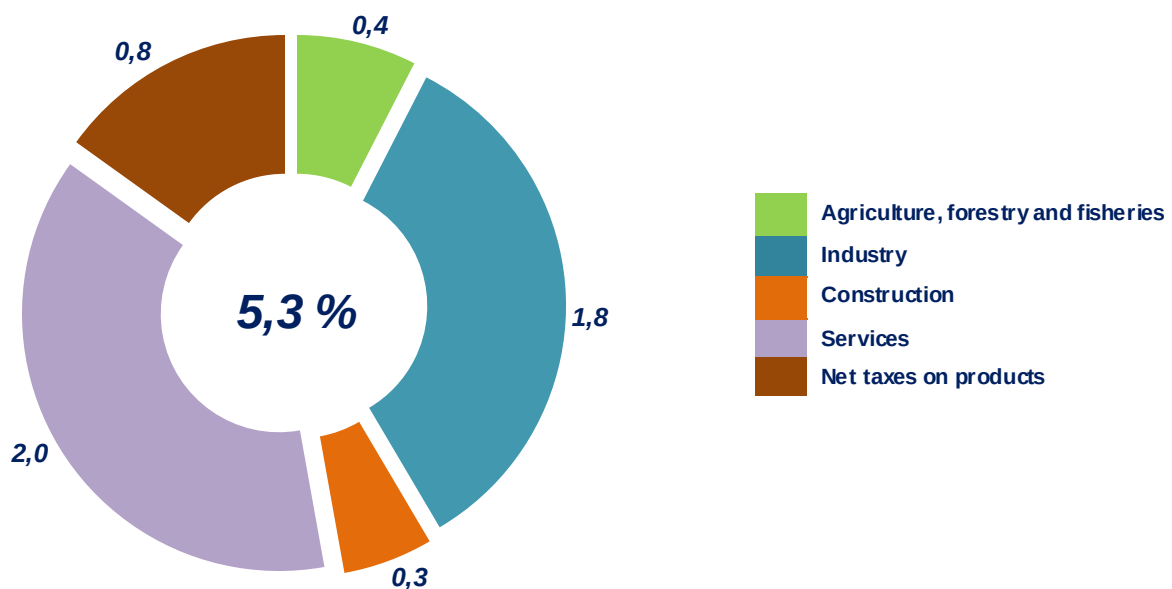

**The structure of gross value added manufacturing industry
for January - March
(% of total)**

	2018	2019
Manufacturing - total	100,0	100,0
Food production, beverages and tobacco	14,6	13,6
Manufacture of textiles, clothing, leather goods and related products	16,9	14,6
Manufacture of wood and paper products; printing and reproduction of recording media	2,0	1,7
Manufacture of coke and refined petroleum products	2,1	2,8
Chemical production	10,2	8,7
Manufacture of basic pharmaceutical products and preparations	1,2	1,1
Manufacture of rubber, plastic products and other non-metallic mineral products	10,2	8,4
Metallurgical and metalworking industry (except machinery and equipment)	30,3	36,7
Manufacture of computers, electronic and optical products	0,5	0,3
Manufacture of electrical equipment	2,9	2,8
Manufacture of machinery and equipment not included in other categories	1,4	0,9
Manufacture of motor vehicles, trailers, semi-trailers and other transport equipment	5,3	6,3
Manufacture of other finished products; repair and installation of machinery and equipment	2,4	2,1

The volume of construction work, compared with the corresponding period of last year, grew by 5.9%. A positive contribution to GDP growth from the construction industry was estimated at 0.3 percentage points.

According to the results of January - March 2019 in agriculture, forestry and fisheries there was a positive growth rate of 2.5%. The contribution of this industry to GDP growth was 0.4 percentage points.

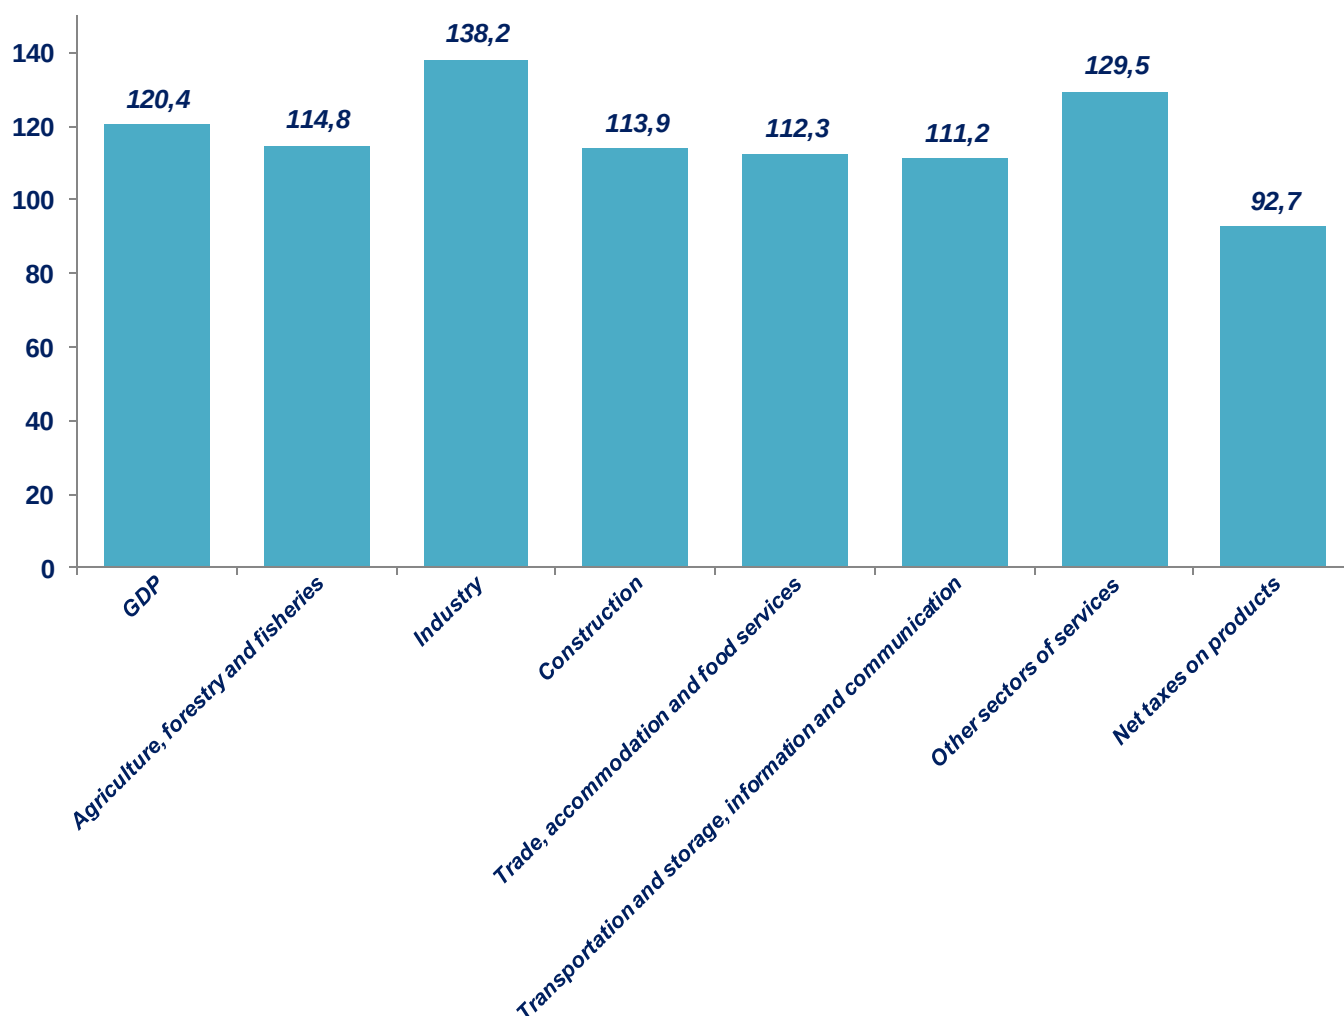

Contribution of sectors to GDP growth in January - March 2019 (%)

In January - March 2019, the GDP deflator was 120.4% relative to prices from the same period of 2018. The highest values of deflator in the structure of GDP are noted in industry - 138.2% and other services industries - 129.5%.

Deflator below the average national level were recorded in agriculture, forestry and fisheries - 114.8%, construction - 113.9%, trade, accommodation and food services - 112.3%, transportation and storage, information and communications - 111, 2% and net taxes on products - 92.7%.

GDP deflators by type of economic activity for January - March 2019 (% from January - March 2018)

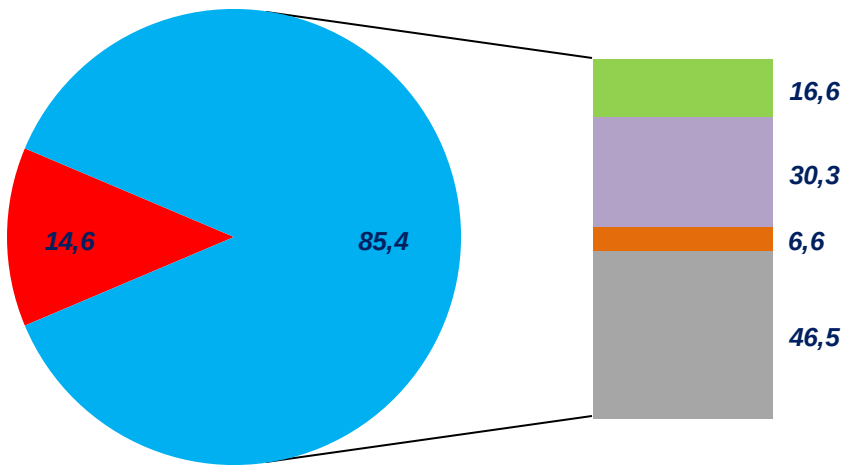

Compared with the corresponding period of last year, the share of agriculture, forestry and fisheries in the sectoral structure of GDP decreased from 16.6% to 14.9%, construction - from 6.6% to 6.1%, while the specific industry weight increased from 30.3% to 33.9%.

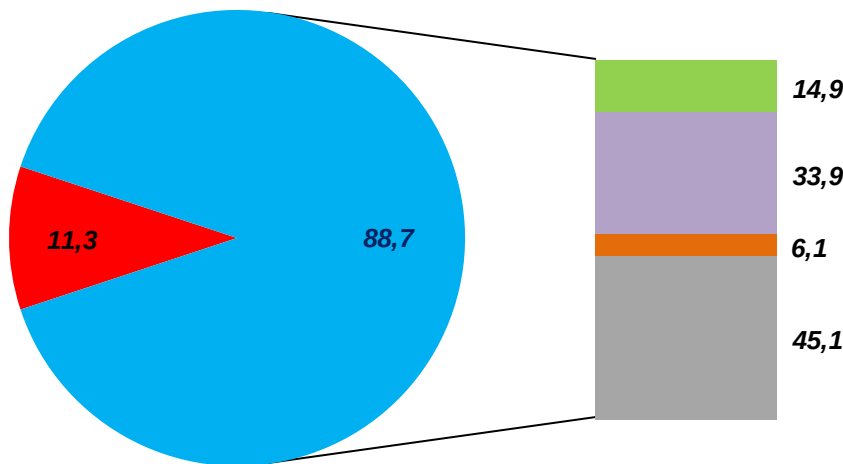

The share of the services sector in the sectoral structure of GDP was 45.1% and, as compared with the same period of last year, decreased by 1.4 percentage points.
