

PRODUCTION OF GROSS DOMESTIC PRODUCT

According to preliminary estimates, the GDP of the Republic of Uzbekistan for January - September 2019 at current prices amounted to 361,858.4 billion soums and, compared with January - September 2018, increased by 5.7% in real terms. The GDP deflator index in relation to January-September 2018 prices amounted to 118.0%.

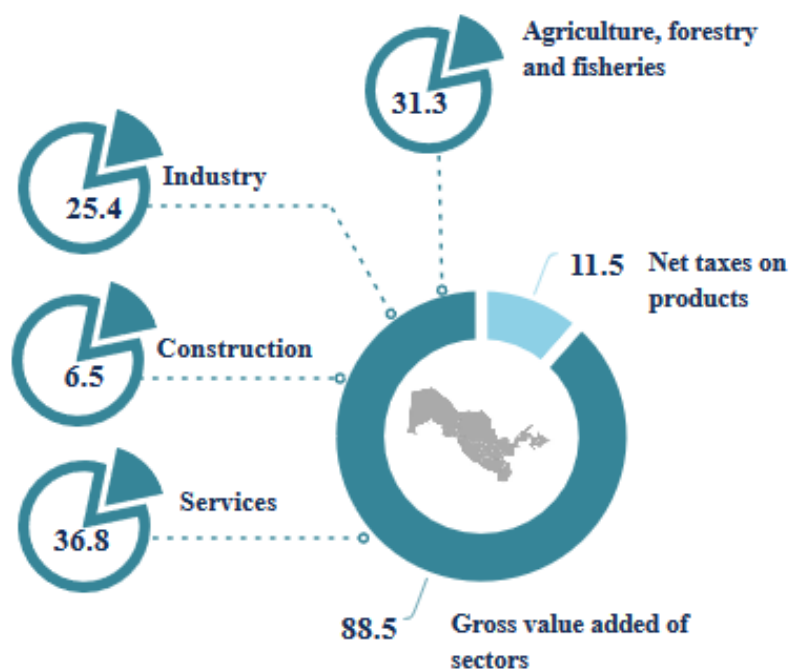

GDP per capita amounted to 10 805.0 thousand soums and, compared with the corresponding period last year, increased by 3.7%.

January-September GDP production by type of economic activity is characterized by the following data:

	<i>Billion soums</i>		<i>Volume Index, %</i>	<i>Impact on GDP growth, %</i>
	<i>2018</i>	<i>2019</i>		
GDP – total	290 161,9	361 858,4	105,7	5,7
<i>including:</i>				
Gross Value added	256 716,4	329 091,0	105,7	5,0
Agriculture, forestry and fisheries	80 331,3	92 186,7	102,4	0,6
Industry	65 351,2	96 227,9	107,0	1,6
Construction	16 677,7	22 561,0	119,3	1,1
Trade, accommodation and food services	19 496,9	23 094,3	104,1	0,3
Transportation and storage, information and communication	22 185,4	25 834,5	105,7	0,4
Other services	52 673,9	69 186,6	105,3	1,0
Net taxes on products	33 445,5	32 767,4	105,6	0,7

Sectoral structure of GDP in January-September (% of total)

2018

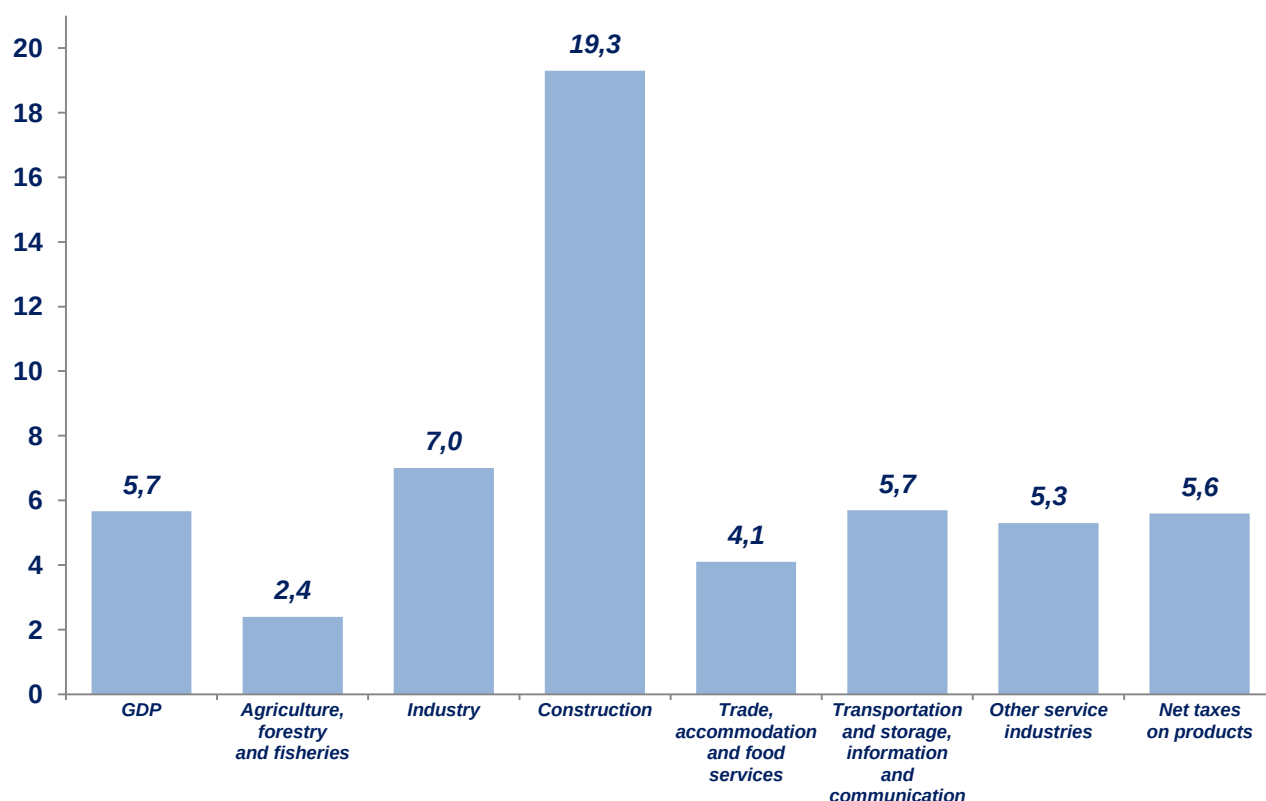

2019

In a comparison with the corresponding period of the previous year, the share of agriculture, forestry and fisheries in the sectoral structure of GDP (GRP) decreased from 31.3 to 28.0, services – from 36.8 % to 35.9 %, while the share of industry increased from 25.4 % to 29.2 % and construction – from 6.5 % to 6.9 %.

The economic growth rates for January - September 2019 are due to positive dynamics in the main sectors of the economy. Gross value added created by all sectors of the economy amounted to 90.9% of total GDP and increased by 5.7% (contribution to GDP growth - 5.0 percentage points). Net taxes on products in the structure of GDP amounted to 9.1% and showed an increase of 5.6% (contribution to GDP growth - 0.7 percentage points).

GDP growth rates by type of economic activity
in January - September 2019
(% to the January - September 2018)

According to the results of January - September 2019, agriculture, forestry and fisheries showed a positive growth rate of 2.4%. The contribution of this industry to GDP growth was 0.6 percentage points. The positive dynamics in agriculture, forestry and fisheries is associated with an increase in crop production by 2.4% and livestock by 2.5%.

In the industry, there is an increase in value added by 7.0%. At the same time, the positive contribution to GDP growth from industrial production amounted to 1.6 percentage points. The positive dynamics in this industry was ensured due to the growth of added value of the mining industry and quarrying by 1.9%, manufacturing - by 8.9% and other industries - by 1.6%.

Other industries	4 154,7	6 787,0	101,6

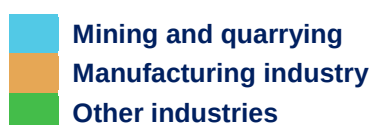

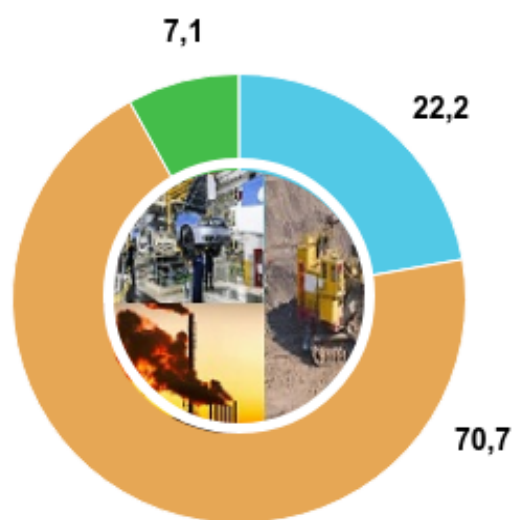

The structure of gross added value of industry in January – September

(% of total)

2018

2019

According to the results of January - September 2019, the largest share in the structure of gross value added of the manufacturing industry is accounted for by the metallurgical and metalworking industries (excluding machinery and equipment) - 34.8%. The share of food, beverage and tobacco products amounted to 14.8%, textiles, clothing, leather and related products - 13.8%, rubber, plastic products and other non-metallic mineral products - 10.5%, chemical products - 7.8%, vehicles, trailers, semi-trailers and other transportation equipment - 5.7%, electrical equipment - 2.5%, coke and oil products - 2.3% and other manufacturing products - 7.8%.

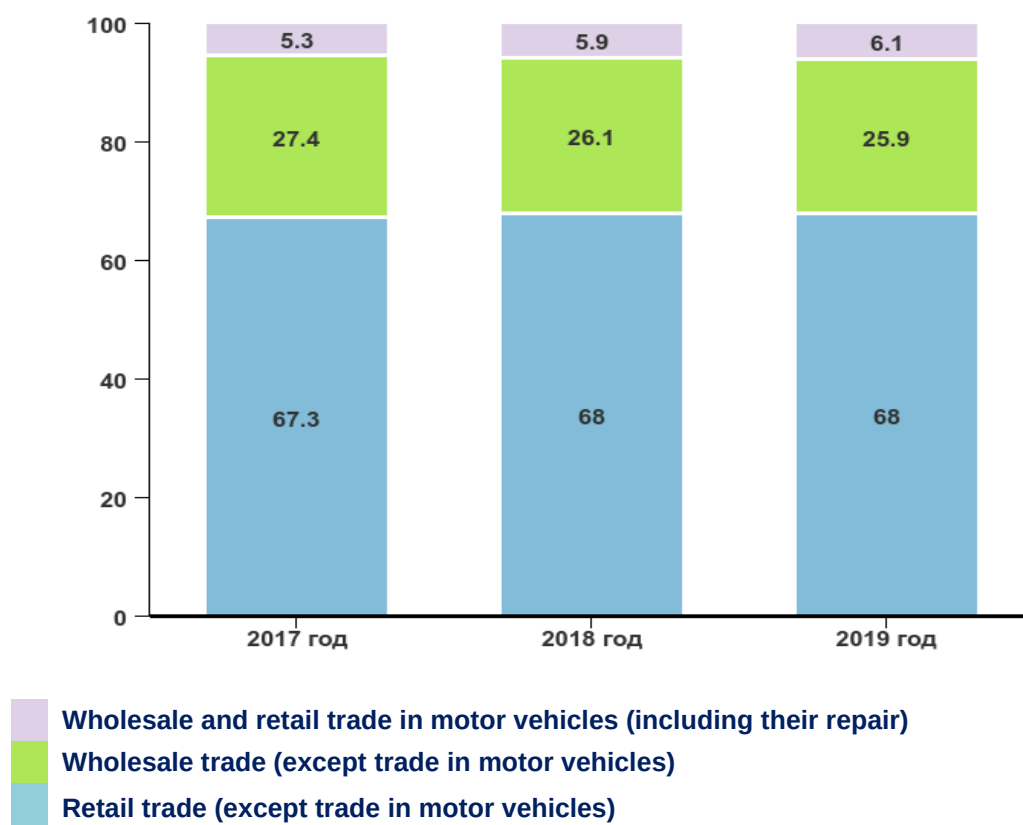

Manufacturing gross value added structure
in January - September
(% of total)

	2018	2019
Manufacturing - total	100,0	100,0
Food, beverage and tobacco product manufacturing	15,9	14,8
Manufacture of textiles, clothing, leather products and related products	15,2	13,8
Manufacture of wood and paper products; printing activities and duplication of recording media	2,5	2,0
Production of coke and oil products	1,8	2,3
Chemical production	9,2	7,8
Manufacture of basic pharmaceutical products and preparations	1,2	1,1
Manufacture of rubber, plastic products and other non-metallic mineral products	12,4	10,5
Metallurgy and metalworking industry (except machinery and equipment)	27,8	34,8
Manufacture of computers, electronic and optical products	0,7	0,6
Manufacture of electrical equipment	2,5	2,5
Manufacture of machinery and equipment nec	2,1	1,4
Manufacture of motor vehicles, trailers, semi-trailers and other transport equipment	5,7	5,7
Manufacture of other finished products; repair and installation of machinery and equipment	3,0	2,7

The volume of construction work, compared with the corresponding period last year, increased by 19.3% as a result of large-scale work on the construction of residential complexes, the construction and overhaul of social and engineering infrastructure facilities, as well as the implementation of investment projects for the construction and modernization of enterprises in basic industries industry. The positive contribution to the GDP growth from the construction industry amounted to 1.1 percentage points.

According to the results of January - September 2019, the gross value added of the services sector amounted to 118 115.4 billion soums and increased by 5.2% compared to the same period of the previous year, while the contribution to GDP growth amounted to 1.7 percentage points. Out of it, trade services (including repair of motor vehicles) increased by 3.9%, accommodation and food services - by 6.1%, transportation and storage - by 5.0%, information and communication - by 8.2% and others service industry sectors - by 5.3%.

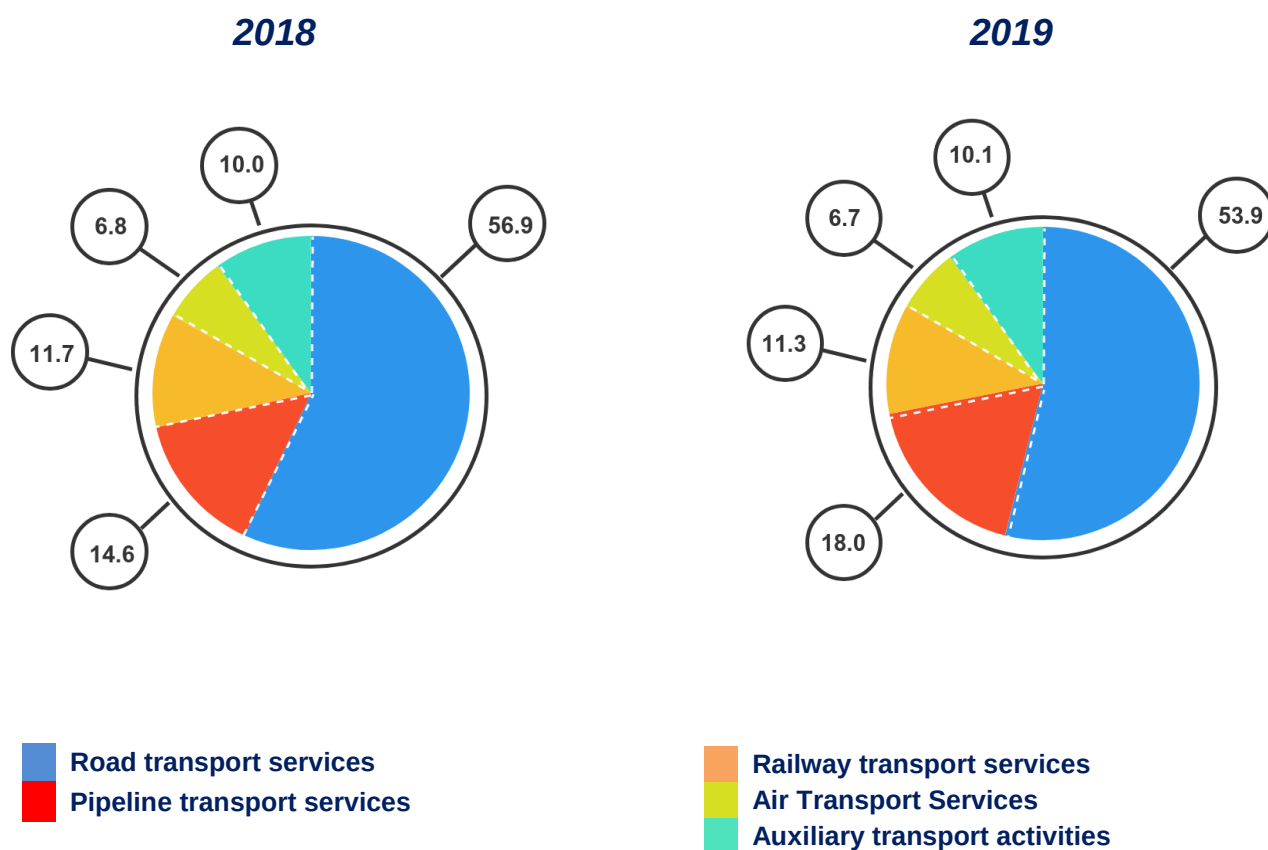

The structure of gross added value of trade (including the repair of motor vehicles) in January - September
(% of total)

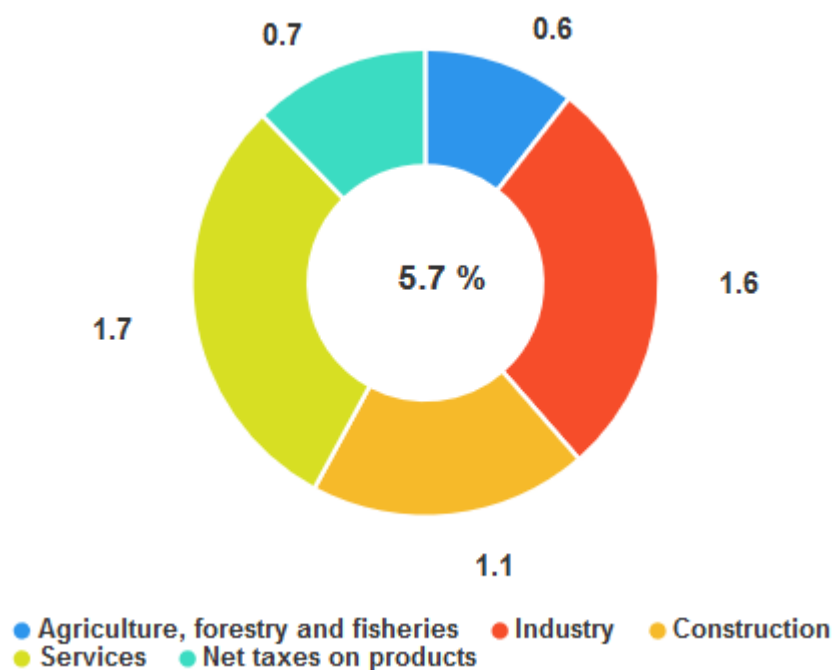

In the structure of gross value added of trade (including repair of motor vehicles), the largest share is in retail trade (except for trade in motor vehicles) - 68.0%. The share of wholesale trade (except for trade in motor vehicles) is 25.9%, and wholesale and retail trade in motor vehicles and their repair is 6.1%.

In January - September 2019, the largest share in the structure of gross value added of transportation and storage is accounted for by road transport - 53.9%. Pipeline transport accounts for 18.0%, railway transport - 11.3%, auxiliary transport activity - 10.1%, air transport - 6.7% of the total value added of this industry.
