**PRODUCTION OF GROSS DOMESTIC PRODUCT
OF THE REPUBLIC OF UZBEKISTAN
FOR JANUARY-JUNE 2023**

Tashkent-2023

Gross domestic product (GDP) of the Republic of Uzbekistan for January-June 2019-2023¹ (at current prices, billion soums)

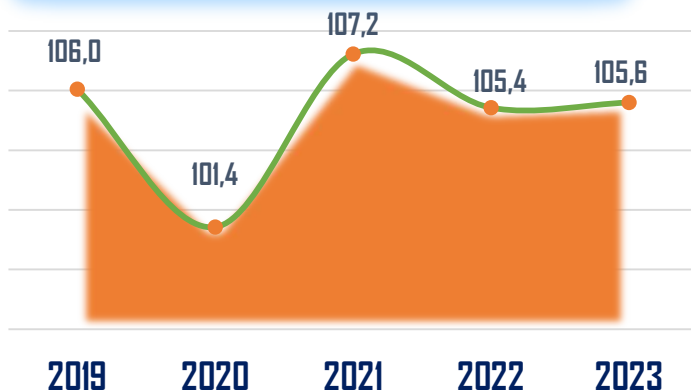

In accordance with a preliminary assessment, in January-June 2023, the GDP of the Republic of Uzbekistan at current prices amounted to **469 619.0** billion soums and, compared to January-June 2022, increased in real terms by **5.6%**. The GDP deflator index, in relation to the prices of January-June 2022, amounted to **111.9%**.

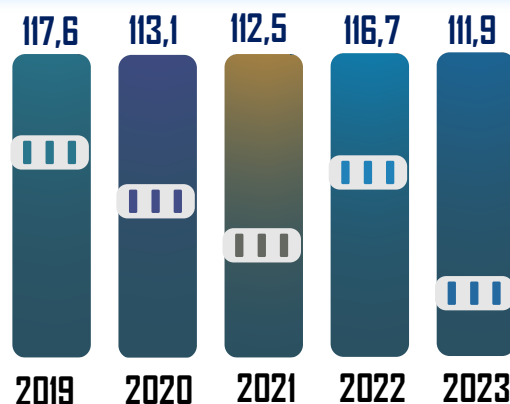

✓ **Gross domestic product (GDP)** is one of the most important indicators of the System of National Accounts (SNA), characterizing the end result of the production activity of resident economic units, which is measured by the value of goods and services produced by these units for final use.

✓ **The index of physical volume (real growth rates) of GDP** is calculated as the ratio of the GDP of the reporting period, calculated at constant prices, i.e. in prices of the corresponding period of the previous year (real GDP) to GDP in current prices of the corresponding period of the previous year.

GDP growth rates for January-June 2019-2023 (in % to the corresponding period of last year)

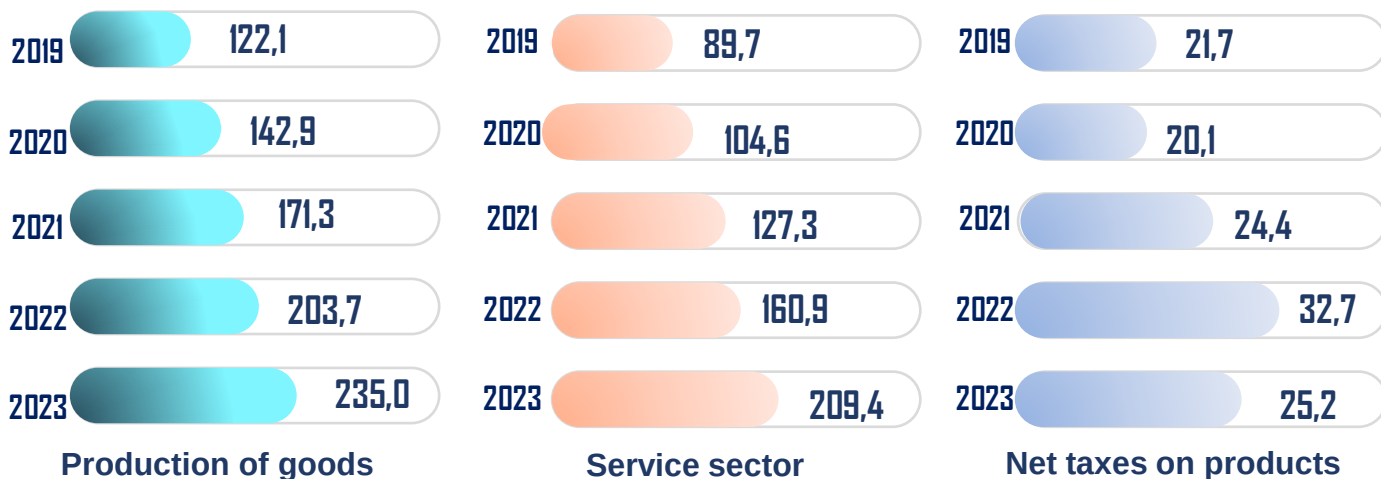

GDP deflator index for January-June 2019-2023 (in % to the corresponding period of last year)

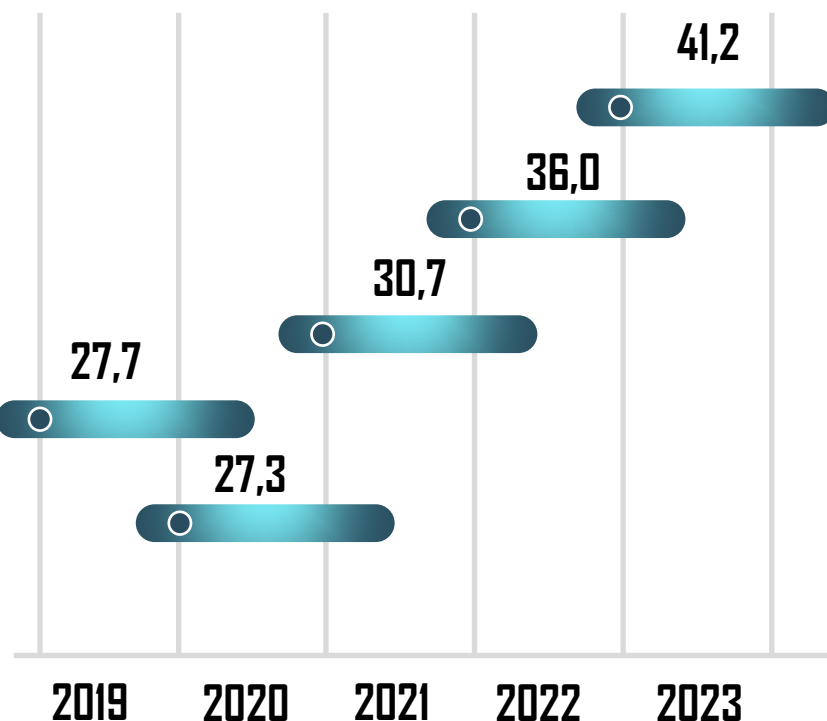

¹Hereinafter, the data for January-June 2019-2022 are given with clarifications

GDP of the Republic of Uzbekistan for January-June 2019-2023 (at current prices, trillion soums)

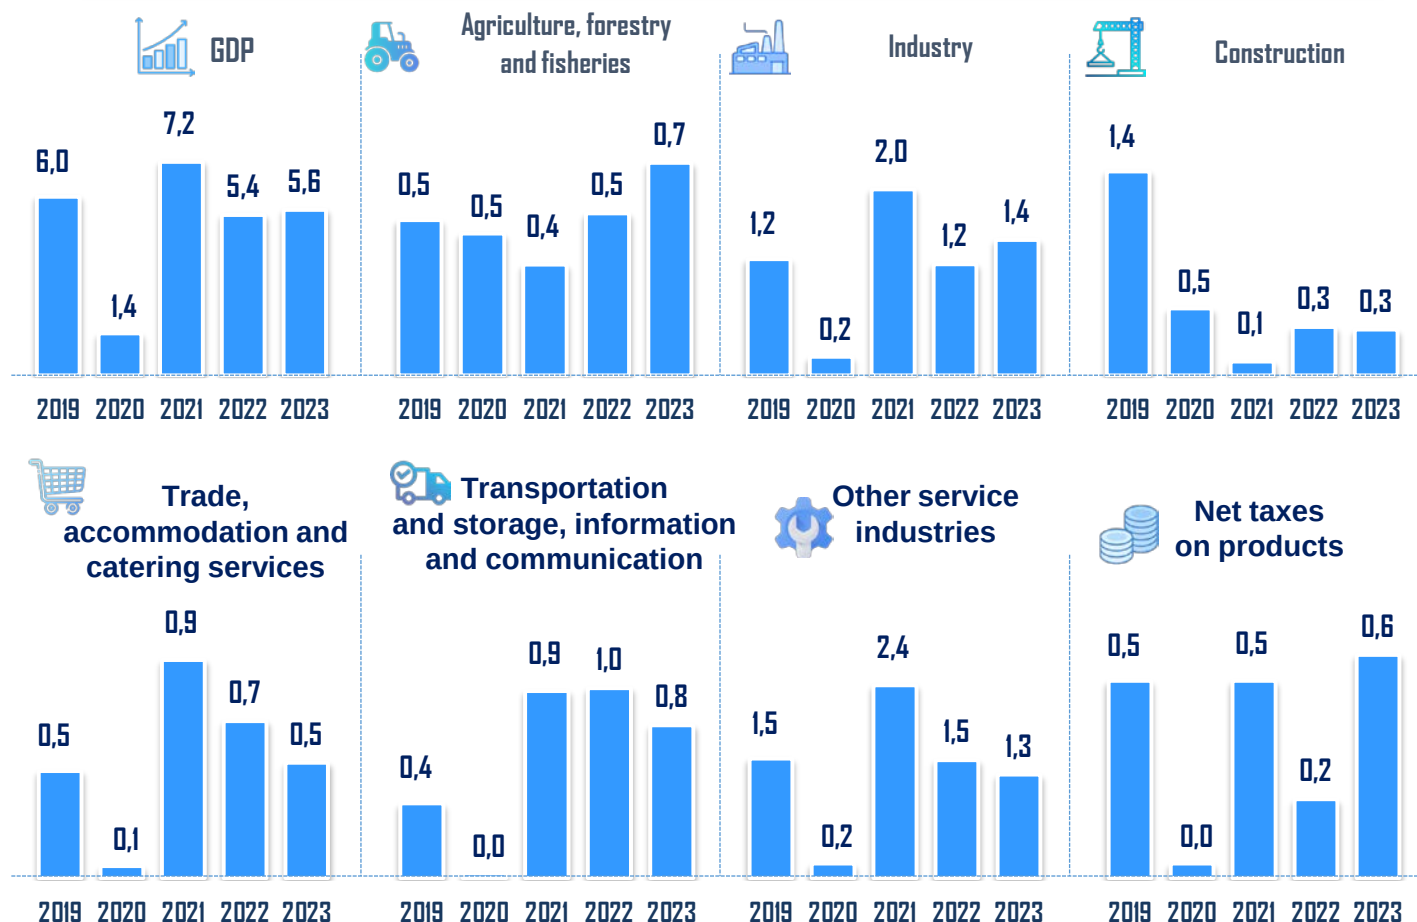

GDP of the Republic of Uzbekistan for January-June 2019-2023 (billion US dollars)

When calculated in US dollars at the average exchange rate for the reporting period, nominal GDP amounted to **41 235.7** million US dollars.

For reference: in January-June 2023, the official exchange rate of the US dollar against the soum averaged **11 388.7** soums, in January-June 2022 – **11046.9** soums, in January-June 2021 – **10524.5** soums, in January-June 2020 – **9790.2** soums, in January-June 2019 years – **8426.8** soums.

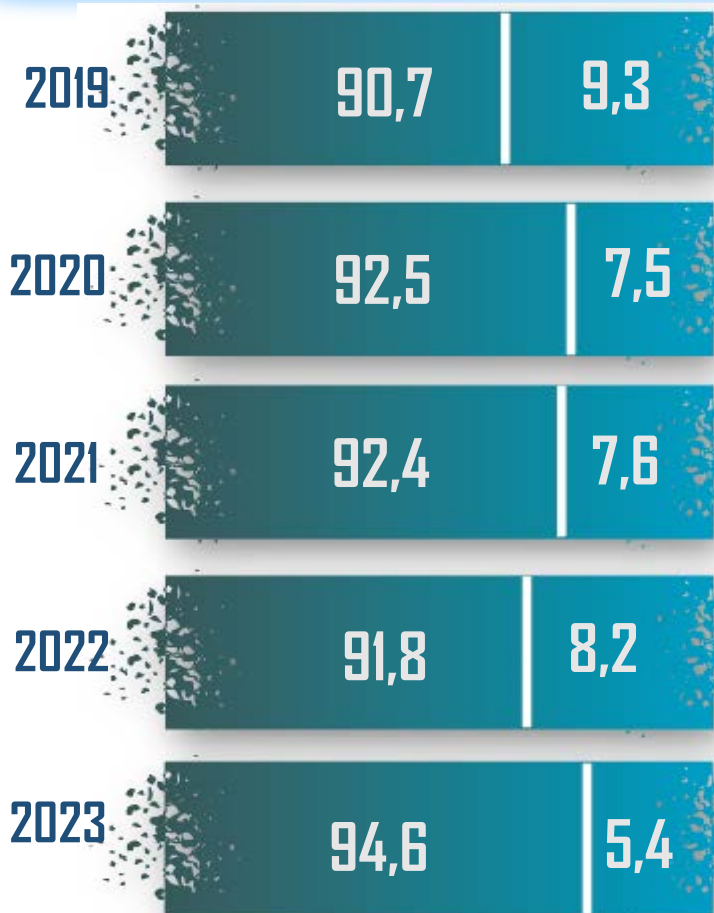

The contribution of industries to GDP growth in January-June 2019-2023 (in % of the total)

A positive contribution to GDP growth was made by the sectors of agriculture, forestry and fisheries – **0.7** p.p., industry – **1.4** p.p., construction – **0.3** p.p. and services – **2.6** p.p. Due to the growth of net taxes on products, GDP increased by **0.6** p.p.

Gross value added created by all sectors of the economy amounted to **94.6%** of the total GDP and increased by **5.5%** (contribution to GDP growth – **5.0** percentage points). Net taxes on products in the structure of GDP amounted to **5.4%** and, compared to January-June 2022, they increased by **6.9%** (contribution to GDP growth – **0.6** p.p.).

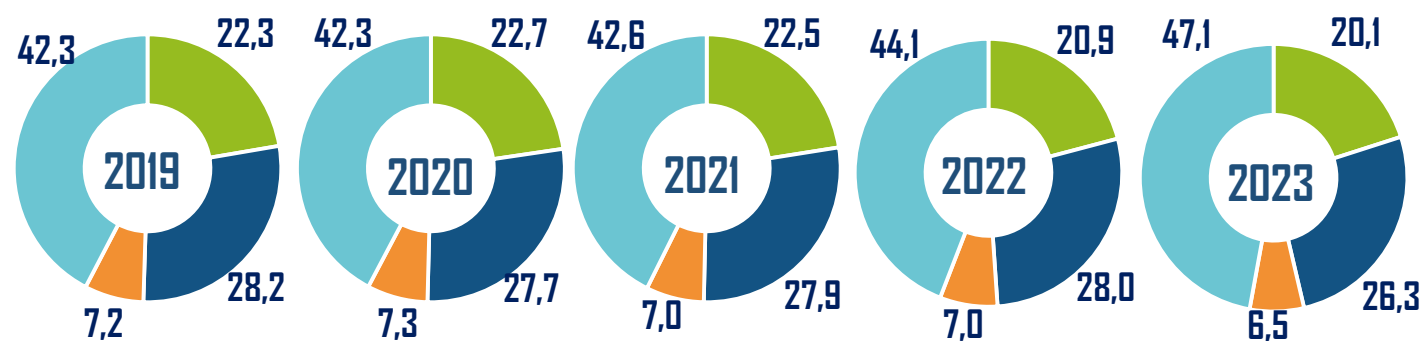

Structure of GDP by types of economic activity for January-June 2019-2023 (in % of the total)

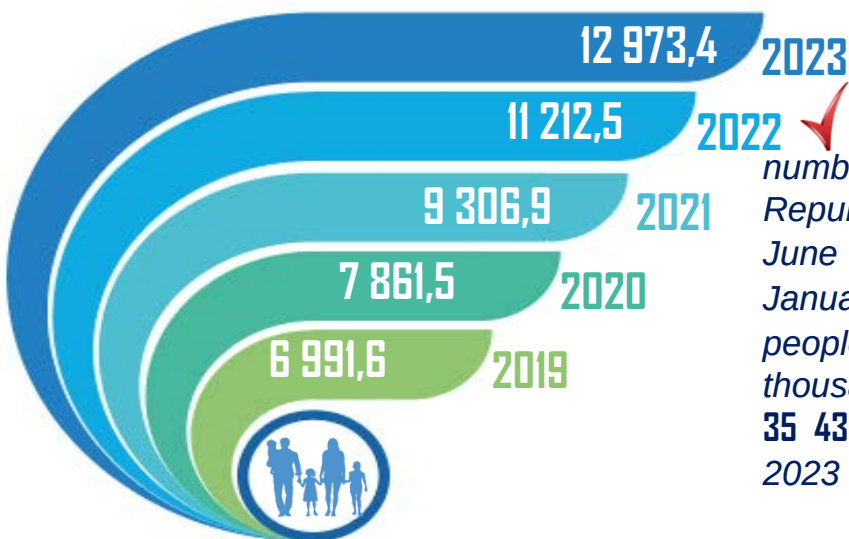

According to the results of January-June 2023, insignificant changes were noted in the sectoral structure of GDP. Thus, the share of the service sector in the sectoral structure of GDP (GVA) increased from 44.1% to 47.1%, while the share of agriculture, forestry and fisheries decreased from 20.9% to 20.1%, industry - from 28.0% to 26.3%, construction - from 7.0% to 6.5%.
